# SIA-DOC-2.0

Freeze Date: 2026-02-12T00:00:00Z Layer: v2.0 Status: Frozen Canonical State

## Scope

This document defines the canonical frozen state of the SIA layer as of 2026-02-12.

No forward commitments. No optimization directives. No active claims. No retroactive mutation.

## Structural Integrity

This freeze represents a structural snapshot of the system at v2.0.

It does not introduce new authority. It does not modify prior canon. It does not supersede existing ledger entries.

## Hashing

This document must be sealed with SHA3-384. The sidecar must contain exactly 96 lowercase hexadecimal characters. No newline permitted.

## Canon Rule

Any modification to this file invalidates the freeze state. A new freeze must be created instead of editing this document.
